Spraying and Coating Facility

Spraying and Coating Facility

Established in 1979, GRM Windows has grown to become one of South Wales most experienced and trusted fabricators of quality PVCu Windows, Doors, Panels and Conservatories to both trade and homeowners alike.

Introducing our spraying and coating facility at GRM Windows Ltd!

Our fully accredited facility allows us to spray your windows and doors in an endless array of colours. At GRM Windows you can order any PVCu, aluminium or glass product and have it sprayed.

We are also able to spray products from other manufacturers, including Duraflex, Eurocell and Veka - pre or post fabrication.

GRM are committed to achieving flawless results across a wide variety of spray coatings, each and every time. Thorough surface preparation and high quality paint application ensure a long lasting durable finish.

All of our spray work carries a 10 year warranty.

GRM use AVKO paint products. AVKO supply, mix and distribute specialist paint products throughout the UK for glass, plastic, wood and metal and are ISO accredited. The paint is made with the highest quality binders and pigments and is ideal for both external and internal use.

So, for the exact colour match, just supply us with a RAL number and we will match your job perfectly!
